REPORT ON PINE BLISTER RUST ERADICATION WORK

FINANCIAL STATEMENT

Total available,		$500 00
Crew wages,	$480 73	
Expenses,	18 45	
Total expended,		$499 18

Area covered,		2,189 acres
Average cost per acre,		$0.228
Currant and gooseberry bushes destroyed,		48,384
Pine infections located,		142

Inspection carried on by the County Blister Rust Agent, Mr. Barraclough, during the period in which control work was carried on as well as at other times during the past year, brought to light the fact that wild currant and gooseberry bushes are very abundant throughout the town and as a consequence infected pines were found to be very numerous. Already in many areas throughout the town Blister Rust is becoming serious and every effort should be made within the very near future to continue control work in order that the spread of Blister Rust may be checked.

We are enclosing herewith a map of your town, upon which has been indicated the area covered to date. In case there is any further information regarding the work of the past season which is desired by the Board of Selectmen, or any other person in the town, we would be glad to supply it to the best of our ability.

Yours very truly,

J. H. FOSTER,
State Forester.

Report of Superintendent of Schools

To the Citizens of Northwood:

There are towns in New Hampshire having a larger population and boasting of more wealth than Northwood, but it is doubtful if any town in this state has a more progressive Woman's Club than is found here. Last year, the Harvey Lake Woman's Club conducted a dental clinic for the benefit of our school children. The following facts indicate the amount of work done.

Total number of children treated,	50
Total number of cleanings,	35
Total number of silver fillings,	26
Total number of silver and cement fillings,	28
Total number of cement fillings,	22
Total number of porcelain fillings,	17
Total number of teeth extracted,	65
Total number of teeth treated (silver nitrate)	46
Total number of pulps capped,	10
Total number of working hours 35 at $2.	$70 00
Average cost per child,	1 40
Estimated cost of work if done at an office,	$213 00

The majority of the parents paid for the work done. In needy cases, the Woman's Club met the expense for the service rendered. This clinic was one of the best things for the health of our school children we have ever had in Northwood. Full credit should be given to the Woman's Club for fostering this work. Plans are being made to have another dental clinic this spring. Doubtless all parents will gladly avail themselves of the opportunity to have their children's teeth given needed attention.

Another project carried out by the Woman's Club was the installation of play ground apparatus in the school yards. At the Narrows School, a volley ball court was laid out and a net put up. A giant stride was erected and teeter boards were constructed. The equipment of the Narrows School was duplicated at the Ridge School. At the Mountain School teeter boards were put in place.

Hanging around, telling smutty stories, and carving pictures in the out buildings, used to be favorite pastimes, years ago, during the periods when school was not in session. There is no better way to keep children out of mischief, than to keep them doing something on the play ground. With the apparatus that our schools now have, the children can spend their time during the recess period and the noon hour in real play, which is profitable as well as enjoyable.

The most important factor in the whole school system is the teacher. She alone merits the credit when our schools attain a high standard of efficiency. Northwood is fortunate in having teachers who, through experience and training have become proficient. To the teachers belong the praise for the excellent work being done in our schools at the present time.

Respectfully submitted,

CLARENCE C. SANBORN,
Superintendent of Schools.
